

**IN THE DRAWINGS:**

Amendments to Drawing Figures (support is found in originally filed FIG. 11 and FIGS. 2-8):

FIG. 18A-C have been added to illustrate the valve in three states: 1) a default neutral state where both valve seats of the three-way valve are open (FIG. 18A), 2) a pneumatically actuated state where the left valve seat is open and the right valve seat is closed (FIG. 18B), and 3) a pneumatically actuated state where the left valve seat is closed and the right valve seat is open (FIG. 18C). New drawing sheets FIG. 18A-C are provided herein.

FIG. 11 has been amended to indicate the portion depicted as Detail E and further, to add reference numerals for valve diaphragm seals (84a, 84b) and valve seats (86a, 86b). An annotated sheet as well as a replacement sheet for FIG. 11 is provided herein.
